**Fresh off the press: openBC acquires First Tuesday AG Zurich**

Dear First Tuesday Zurich Members, Partners and Friends

We are very proud to announce that First Tuesday AG Zurich has been acquired by openBC, the foremost online networking platform in Europe and Asia.

Our business as a think tank, creating and developing networks and enabling strategic dialogue, will continue with the added enormous power and global reach of the online networking platforms of openBC.

We have opted for openBC because as a social software company they have demonstrated a firm commitment to providing a comprehensive range of network capabilities. The two business models compliment one another superbly. We believe that this acquisition creates a strong and robust partnership, and that together we will redefine the future and power of networks, online and offline.

Your support and commitment of First Tuesday Zurich as Thought Leaders, partners, members, and friends over the last six years has been tremendous and greatly appreciated. Together we have had impact and made a difference – in our companies, our industries, and our communities. Thank you.

We are happy to share this news with you, and look forward to working with you in 2006 and beyond.

Please view the full press release in English or German.
